EXPERIENCE

January 2024 - March 2024
Capstone Project Neumont College | Salt Lake City, Utah

- Engineered and crafted dimension-shifting puzzle-platformer in Unity (C#) enabling transitions between 2D and 3D gameplay
- Designed original puzzle mechanics utilizing dual-dimensional logic to stimulate player problem-solving abilities
- Directed complete development lifecycle involving concept creation, system design, programming, debugging, and playtesting.

May 2020 - July 2022
Data Entry Assistant RAN Health Services | Salida, CA

- Optimized workflow efficiency and regulatory compliance by digitizing and structuring patient documentation.
- Streamlined case prioritization based on appointment urgency to improve physician review efficiency.
- Upheld strict confidentiality while maintaining high accuracy during handling of sensitive medical records.
- Supported administrative tasks by preparing reports and summaries as needed.

EDUCATION

Expected in June 2026
Bachelor of Science | Game Design
Neumont College of Computer Science, Salt Lake City, UT
Expected Graduation: 2025
